LVT Flooring Maintenance kit

We recommend the use of Dr Shultz CARE KIT for your new Floor.

This is a comprehensive cleaning kit and the contents include three 750ml bottles.

First is CLEAN & STRIP which removes all dirt and grease from the LVT.

Then a bottle of FLOORMAT which is a hard MAT dressing which will protect the floor for many months depending on wear.

Lastly a bottle of R1000 which is a regular cleaner

Very importantly the box also contains the various tools and instructions necessary to complete the maintenance.

These can be purchased directly from Dr Shultz at the following website

<https://drschutz.co.uk/retail/floor-care-kit/>
